ThinkUKnow – Fighting Cyberbullying

HTCO Crime Prevention has a partnership agreement with Microsoft Australia, (proudly supported by ninemsn) called ThinkUKnow Australia (www.thinkuknow.org.au). This initiative delivers free presentations by trained AFP / Microsoft / ninemsn volunteers to parents, carers, teachers and staff at schools around Australia. The presentations cover cyber bullying, 'sexting', online grooming, scams, cyber security identity theft and signs that may indicate a child is experiencing problems as a result of online activity.

In essence, the presentations explore how children are having fun online, how to help protect them and what to do if things go wrong. The presentations benefit from having specialists from both the IT Industry and Law Enforcement jointly deliver the content and the feedback we have received from past presentations has been overwhelmingly positive.

The presentations are supplemented with additional online resources for both parents, carers and teachers, and youth. See www.thinkuknow.org.au for further information.

If you would like to view some of the short videos we play during the course of our presentations, please visit our dedicated YouTube channel at: <http://www.youtube.com/user/ThinkUKnowAUS>.
